

Office of the Digital Registrar

Approach to Market (ATM)

Digital Records Modernisation Partner

ATM Reference: ODR-2026-118

Published on AusTender

Closing time: 12:00 pm AEDT (Canberra time), Thursday 12 November 2026

The Office of the Digital Registrar (the Office) is a non-corporate Commonwealth entity that maintains national registers of business and professional records.

1. Background

1.1 The Office holds 60 million records across three legacy registry systems, the oldest of which was implemented in 2004.

1.2 The Office intends to consolidate these registers onto a modern records platform and to retire paper-based processes for 1.2 million annual lodgements.

1.3 The Office is seeking a partner to deliver discovery, target-state architecture and a business case for the modernisation program.

2. Requirements

R1	The supplier must deliver a current-state assessment of the three registry systems, including data quality, integration and technical debt.
R2	The supplier must design a target-state architecture that complies with the Protective Security Policy Framework and the Information Security Manual.
R3	The supplier must prepare a business case consistent with the Department of Finance Digital Investment Framework.
R4	The supplier must engage with at least 40 internal and external stakeholders, including registry users with accessibility needs.
R5	Personnel must hold or be able to obtain a Negative Vetting Level 1 (NV1) security clearance.
R6	The supplier should demonstrate experience modernising records or registry platforms for Commonwealth entities.
R7	The supplier should propose an approach to data migration and records retention under the Archives Act 1983.

3. Evaluation criteria

Criterion	Weighting
Understanding and approach	35%
Team capability and clearances	25%
Experience with Commonwealth registries	20%
Price and value for money	20%

4. Submission requirements

4.1 Responses must be lodged through AusTender before the closing time.

4.2 The response must not exceed 20 pages.

4.3 Questions must be submitted by 12:00 pm AEDT on Thursday 29 October 2026.

4.4 The Office intends to issue a work order under the BuyICT Digital Marketplace Panel 2. Rates must not exceed panel ceiling rates.

4.5 The work order will be priced as capped time and materials.
